Tappi Inyene

Chief Executive Officer

Foreward

Since our inception in February 2020, Fusion has been focused on providing its customers with clean workspaces along with whatever they might need in managing their physical space.

To increase customer satisfaction, Fusion recently introduced a digital quality-assurance program that gave customers access to cleaning schedules and work-order status.

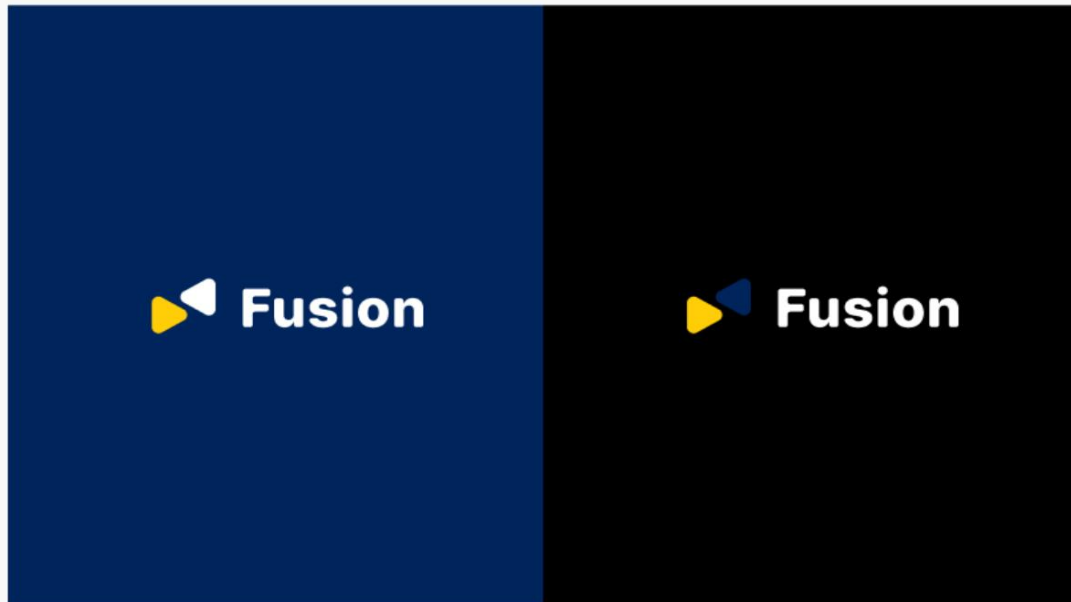

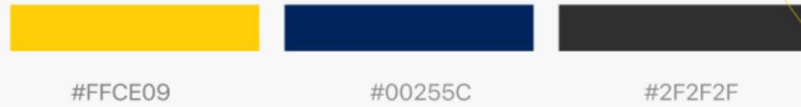

As a reliable and reputable local partner for companies in Nigeria, employees at Fusion, known as 'fusers' engage in the daily office management of workspaces and are responsible for meeting the client's specified requirements.

All management levels are responsible for ensuring that the requirements of the Quality System Manual are both understood and observed.

Fusion's mission is to create a sustainable economic growth by creating good jobs for its fusers and providing opportunities for small businesses to flourish all around the nation.

As a local partner company, we ought to meet the necessity of the country for the benefit of all.

Logo

Fusion

The term 'Fusion' means the process of combining two or more things together into one. We fuse with our client to form a beautiful ecosystem of trust.

The symbol represents the relationship between the brand and our clients, while the negative whitespace represents the transparency in our relationship.

Who we are

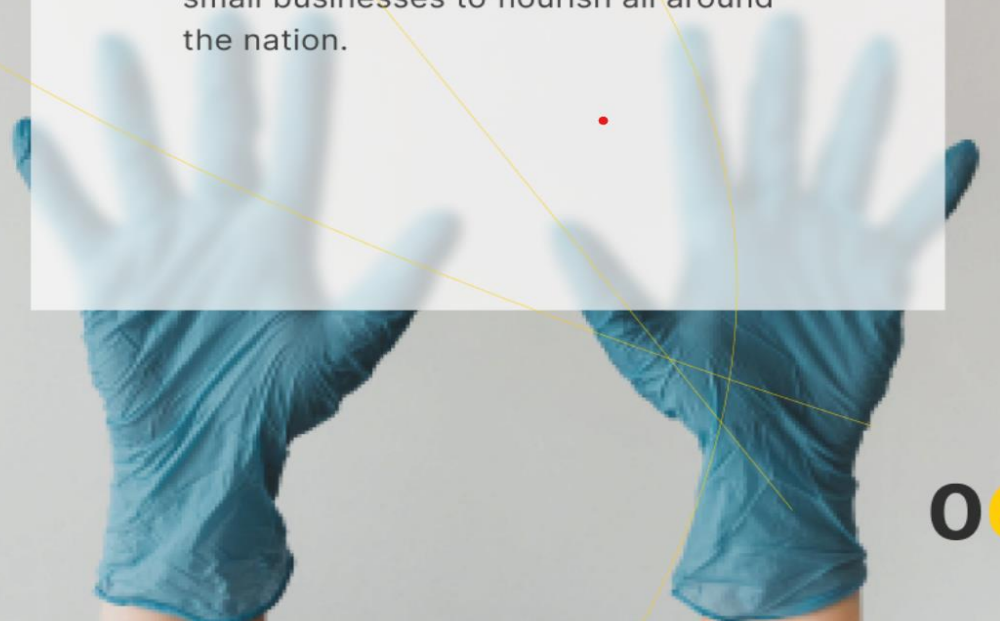

Fusion is an office management service company with operations in Lagos and Enugu, Nigeria. Founded in 2020 by Tappi Inyene and Echendu Chinedu who sought to make the working environment comfortable, aiding a bond between our clients, the employees and our company through effective communication by our implemented technology and of course with a smile. Fusion's services includes cleaning various offices including; conference rooms, workstations and office kitchens. We also engage in detailing floors, taking out the trash and recycling. Maintenance services range from relatively simple tasks like changing light bulbs, assembling furniture, packing and unpacking boxes to jobs like painting, carpentry, light plumbing and electrical work. For its office-supplies service, Fusion automatically refills a company's supply of trash bags, paper towels, soap, copy paper, pens, pencils and printer cartridges. It is the firm's ultimate goal to provide its customers with clean floors and windows along whatever they might need in managing their physical space.

To clients and staff, working with Fusion means transparency and community.

Our Mission

To create a sustainable economical growth by creating good jobs for its users and providing opportunities for small businesses to flourish all around the nation.

Vision

Our vision at Fusion is to create a bond that makes the world work better, which in its true form connects our environment not just with our clients, but with everyone.

Our Values

Alacrity

Our team of professionals are highly motivated and passionate about their jobs.

Ingenuity

Our procedures and processes are unique with state of the art technologies.

Transparency

At Fusion, everything is plain and open and there is free communication between us, the fusers and our clients.

Community

We have a very good network of professionals, partners and suppliers which promotes collaboration.

Capabilities

Cleaning Services

The average work desk has 400 times the amount of bacteria on your toilet seat, so all offices need services like ours to tackle the hassle of cleaning regularly.

Office Supplies

We help our customers automatically refill their supplies of trash bags, paper towels, soaps, copy paper, pens and pencils, and printer cartridges.

Maintenance Services

We carry out routine checks to detect faulty office equipment and also offer carpentry, and light plumbing and electrical work.

The Team

We pride ourselves in having the best team of excellent and talented individuals and we believe in the philosophy that a great team achieves quality and on-time delivery of products and services.
